PROFILE

I am José Eduardo Calvano Viola, an Information Systems Engineer and professional full-stack developer with over four years of hands-on experience in web and mobile application development. My journey has been marked by self-guided learning, fostering a creative approach, and a constant pursuit of new challenges in the ever-evolving world of technology.

WORK EXPERIENCE

Bet Application Developer

Litebox Mar 2022 - Currently

- Efficiently implemented and integrated software developed by the team, and updated integration/deployment scripts to enhance continuous integration practices within an agile methodology.
- Designed and developed responsive web interfaces using HTML, CSS, and JavaScript to create visually appealing and user-friendly websites.
- Created RESTful APIs to facilitate data exchange between the front-end and back-end systems.
- Designed and maintained NoSQL databases (e.g., MongoDB) for data storage.
- Collaborated with Product Managers to identify new requirements and translated them into well-defined user stories for individual team members.
- Technologies used:
 - Front-End: React.js, React Native, Next.js
 - Back-End: Node.js, Mongo

Mobile Banking Developer

Banco de corrientes S.A Feb 2020 - Feb 2022

- Identified both functional and non-functional requirements for applications.
- Conducted UI/UX design using Adobe XD to create user-friendly interfaces.
- Contributed to the development team, specializing in React Native and utilizing libraries like React Navigation and Redux for application state management.
- Perform service modifications using Genexus, for integration with core banking.
- Took charge of preparing and updating documentation at each project stage.
- Collaborated in the integration of third-party libraries, including Vu Security, Onboarding with Facephi, and Prisma Medio de Pagos.
- Technologies used:
 - UI/UX: Adobe XD
 - Mobile Development: React Native, React Navigation, Redux
 - Integration: Genexus.

Web Developer

Freelance developer Jan 2018 - Feb 2020

- Contributed to the design and development of responsive websites for various platforms, including mobile devices, tablets, and desktop computers. Utilized HTML5, CSS3, and JavaScript, with a focus on React.js. Implemented site enhancements to improve the user experience for multiple companies
